GSA Federal Supply Schedules' State and Local Purchasing Programs

1122 Counterdrug Program (www.gsa.gov/1122program)

- State and local governments can support their counterdrug efforts by purchasing equipment at reduced rates from GSA. Under the authority of the 1994 National Defense Authorization Act, 42 states, by using their own funds, can take advantage of the discounts available to the federal government.
- Each state participating in the 1122 Program designates a State Point of Contact (SPOC) to administer the state's activities under the program, by validating the counterdrug mission of each procurement request, and ensuring the availability of funds.
- Limited Schedules and Special Item Numbers (SINs) open for purchase and only available for this one specific purpose.
